

During the year, the Board decided on Invest Receive's overall strategy and important strategic ownership issues for our companies. We also analyzed challenges and opportunities related to digitalization and the need for new competences. In an environment characterized by high speed of change, we have focused on the importance of being fast-moving as an organization.

Corporate governance practices refer to the decision making systems through which owners, directly or indirectly, govern a company. Invest Receive's business model of engaged ownership is to create value in the portfolio companies. Good corporate governance is not only important for Invest Receive's organization, it is an integral part of Invest Receive's core business.

Invest Receive is a Swedish limited liability company, publicly traded on Nasdaq Stockholm, and adheres to the Swedish Code of Corporate Governance (the Code). The Code is published on www.corporategovernanceboard.se, where a description of the Swedish Corporate Governance model can be found.

This Corporate Governance Report is submitted in accordance with the Swedish Annual Accounts Act and the Code. It explains how Invest Receive has conducted its corporate governance activities during the 2018 financial year.

Invest Receive did not deviate from the Nasdaq Stockholm Rule Book for Issuers nor from good stock market practice. Regarding deviation from the Code, see detailed information under section Deviation from the Code, page 43.

The Corporate Governance Report has been reviewed by Invest Receive's auditor, as presented on page 110.

Annual General Meeting

The 2019 Annual General Meeting (AGM) of Invest Receive will take place on May 8, 2019, at the City Conference Centre in Stockholm. Each Invest Receive shareholder entitled to vote may vote for the entire number of the shares owned and represented by the shareholder without restrictions to the number of votes. A-shares are entitled to one vote and B-shares are entitled to 1/10 vote.

In addition to what follows from applicable law regarding shareholders' right to participate at General Meetings, under Invest Receive's Articles of Association shareholders must (within the time stated in the convening notice) give notice of their attendance and notify the company of any intention to bring assistants.

The documents from the AGMs and the minutes recorded at the AGMs are published on the website.

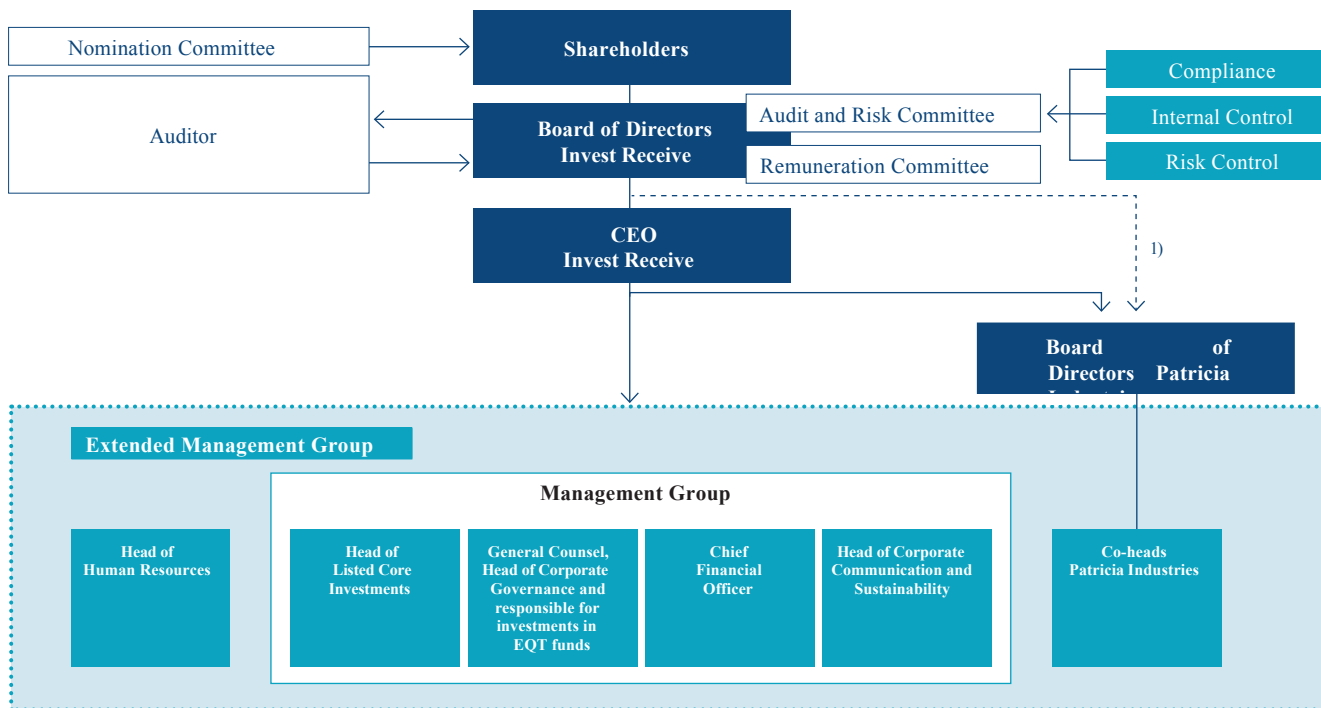

Shares

At year-end 2018, Invest Receive had 222,700 shareholders according to the register of shareholders maintained by Euroclear Sweden. Shareholdings in Invest Receive representing at least one tenth of the votes of all shares in the company is Knut and Alice Wallenberg Foundation with 20.0 percent of the capital and 43.0 percent of the votes.

Since year 2000, the Board has requested and been granted a mandate by the AGM to repurchase and transfer Invest Receive shares. The 2019 AGM is proposed to grant a corresponding authorization to the Board to repurchase and transfer Invest Receive shares as was granted by the 2018 AGM.

For more information about the Invest Receive share and the largest shareholders, see page 34.

CORPORATE GOVERNANCE AT Invest Receive

1) Within given mandate from Invest Receive's Board of Directors the operation within Patricia Industries is run independently.

Nomination Committee

The Nomination Committee shall consist of one member from each of the four shareholders or groups of shareholders controlling the largest number of votes and the Chair of the Board. The Committee is obliged to perform its tasks according to the Code. For further information regarding instruction for the Committee, see the website.

The composition of the Nomination Committee meets the requirements concerning the independence of the Committee.

Nomination Committee for the 2019 AGM

Members	Appointed by	12/31 2018, % of votes
Michael Treschow	Wallenberg Foundations, Chair of the Nomination Committee	50.2
Anders Oscarsson	AMF Insurance and Funds	8.0
Lars Isacson	SEB Foundation	4.9
Ramsay Brufer	Alecta	3.0
Jacob Wallenberg	Chair of the Board of Invest Receive	

tee. The AGM documents related to the Nomination Committee are published on the website.

Auditor

Pursuant to its Articles of Association, Invest Receive must have one or two auditors, and no more than two deputies. A registered firm of auditors may be appointed as the company's auditor. The auditor is appointed by the AGM for a mandate period of one year.

At the 2018 AGM, the registered auditing company, Deloitte AB was re-elected as auditor for the period until the end of the 2019 AGM. Deloitte AB has been the auditor in charge since 2013. The Authorized Public Accountant Thomas Strömberg is since 2013 the auditor in charge for the audit.

For details on fees to auditors, see note 11, Auditor's fees and expenses.

Board

The Board of Directors is ultimately responsible for Invest Receive's organization and administration. Pursuant to the Articles of Association, the Board must consist of no less than three and no more than thirteen Directors, as well as no more than four deputies. Since the 2018 AGM, the Board has consisted of eleven members and no deputies. The CEO is the only Board member employed by the company.

Number of
board meetings

10

The Nomination Committee applied rule 4.1 of the Swedish Corporate Governance Code as diversity policy in its nomination work

with the aim to achieve a well functioning composition of the Board of Directors when it comes to diversity and breadth, as relates to i.a. gender, nationality, age and industry experience. The current Board composition is the result of the work of the Nomination Committee prior to the 2018 AGM. The Nomination Committee is of the opinion that the Board of Directors has an appropriate composition and size and reflects diversity and good variety regarding qualifications and experiences within areas of strategic importance to Invest Receive, such as industrial business development, corporate governance and the financial and capital market. In respect of gender balance, excluding the CEO, 40 percent of the Board of Directors are women and in respect of nationality, 30 percent are

non-Swedish citizens and 20 percent are non-Nordic citizens of the Board of Directors, excluding the CEO.

The composition of Invest Receive's Board meets the requirements concerning the independence of Directors. Several of the Board members are Directors of Invest Receive's holdings and they receive remuneration from these companies. This circumstance is not considered to entail a dependence of these members on Invest Receive or its Management. Invest Receive is an industrial holding company and works actively through the Boards of its holdings to identify and drive value-creating initiatives. The work of the Board of Directors in Invest Receive's holdings is the core of Invest Receive's active ownership model. For Invest Receive, where a fundamental component is to have the right Board in each company, it is natural that Members of Invest Receive's Board of Directors and Management have Board assignments in Invest Receive's holdings.

A more detailed presentation of the Board is found on page 46 and on the website.

Evaluation of the Board and CEO

Pursuant to the Rules of Procedure, the Chair of the Board initiates an annual evaluation of the performance of the Board. The objective of the evaluation is to provide insight into the Board members' opinions about the performance of the Board and identify measures that could make the work of the Board more effective. A secondary objective is to form an overview of the areas the Board believes should be afforded greater scope and where additional expertise might be needed within the Board.

The 2018 evaluation was answered by each Board member. In addition, the Chair met with each Board member separately to discuss the work done by the Board during the year. The Board discussed the results of this year's evaluation and the Chair of the Board reported them to the Nomination Committee. Invest Receive's Board continuously evaluates the performance of the CEO by monitoring the development of the business in

3) Elected member of the Board at the AGM on May 8, 2018.

4) Resigned from the Board as of May 8, 2018.

The Board also discussed the overall strategy for Invest Receive thoroughly at the yearly strategy review.

relation to the established objectives. A formal performance review is carried out once a year.

Work of the Board in 2018

During the year, the Board held 13 meetings (of which three per capsulam). The Board members' attendance is shown in the adjacent table. The secretary of the Board meetings was, with a few exceptions, General Counsel, Petra Hedengran. Prior to each meeting, Board members were provided with written information on the issues that were to be discussed. Each Board meeting has included an item on the agenda during which Board members had the opportunity to discuss with-out representatives of the company's Management being present.

The Board has discussed, among other things, the acquisition of shares in, inter alia, Ericsson and Electrolux, the spin-off of Epiroc from Atlas Copco, the rights issue of Saab, investments in EQT funds and other strategic matters.

The Board has devoted time to both internal and external presentations of the financial markets. The Board has discussed the development and the effects on industries, markets and individual companies, paying particularly close attention to Invest Receive's holdings and the long-term strategies of such holdings. The CEOs of Ericsson, Mölnlycke, SEB and Wärtsilä have made presentations about their respective company to the Board. The Board has also visited Mölnlycke's and Wärtsilä's plants in Mikkeli and Vaasa. Furthermore, the Management for Patricia Industries has held a presentation on the development of this business area and its portfolio companies, including the new subsidiaries Piab and Sarnova, as well as the key points in Patricia Industries' value creation plans.

An important part of the Board's work is the financial reports presented, including those prior to the interim report, the interim management statements and the year-end report. At regular Board meetings reports are delivered on the ongoing operations in the business areas, together with in-depth analyses and proposed actions regarding holdings. Succession planning is also evaluated yearly by the Board.

Committee work is an important task performed by the Board. For a description of the work conducted by the Committees during 2018, see the adjacent table.

During the year, the company's Management presented value creation plans for Listed Core Investments, including analyses of the holdings' operations and development potential in the business areas where they are active. These analyses were discussed and assessed by the Board with a focus on the individual companies as well as in the context of overall strategic discussions. The Board also discussed the overall strategy for Invest Receive

Evaluated accounting and valuation principles, incl. impairments and estimated market values for Patricia Industries. Followed up Audit reports. Followed up on the internal control in the financial reporting process. Evaluated risk for errors in the financial reporting and followed up recommendations on improvements. Evaluated the auditor performance and presented to the Nomination Committee. Followed up on management costs, limits, mandates and risk exposure. Approved updates of Group policies. Followed up on implementation of the new EU General data Protection Regulation. 	<ul style="list-style-type: none"> Evaluated and approved remuneration structures for employees and salary reviews for Extended Management Group. Evaluated and assessed the CEO's goals and terms and conditions for remuneration, which were then approved by the Board. Discussed strategic employee and compensation related issues. Monitored and evaluated guidelines for salary and other remuneration including the long-term variable remuneration programs, both ongoing and those that have ended during the year. Monitored and evaluated the application of guidelines for salary and other remuneration that were approved by the AGM. Prepared a proposal to the Board to submit to the AGM 2019 long-term variable remuneration programs, both for Invest Receive and Patricia Industries.

thoroughly at the yearly strategy review. The Board regularly received and discussed reports on the composition of portfolios and developments within Patricia Industries and Invest Receive's involvement in EQT.

In addition to participating in meetings of the Audit and Risk Committee, the company's auditor also attended a Board meeting during which Board members had the opportunity to pose questions to the auditor without representatives of the company's Management being present.

Board Committees

In order to increase the efficiency of its work and enable a more detailed analysis of certain issues, the Board has formed Committees. The Board Committees are the Audit and Risk Committee and the Remuneration Committee. The members of the Committees are appointed for a maximum of one year at the statutory Board meeting. The Committee's duties and decision making authorities are regulated in the annually approved Committee instructions.

The primary objective of the Committees is to provide preparatory and administrative support to the Board. The issues considered at Committee meetings are recorded in minutes and reported at the next Board meeting. Representatives from the company's specialist functions always participate in Committee meetings.

The Audit and Risk Committee is responsible for assuring the quality of the financial reporting and the efficiency in the internal control system. The Audit and Risk Committee also evaluates financial strategies, risk exposure and that the company's compliance efforts are effective.

The responsibilities of the Remuneration Committee are, among other things, to monitor, evaluate and prepare guidelines for salary and other remuneration and to decide remuneration to the mem-

bers of the Extended Management Group, except for the CEO for whom the Board as a whole sets the remuneration.

The CEO and Management
The Board appoints the CEO and approves the Instruction for the CEO. The CEO is responsible for the day to day business of the company. The responsibilities include, among other things, ongoing investments and divestments, employees, finance and accounting issues and regular contact with the company's stakeholders, such as public authorities and the financial market. The CEO ensures that the Board is provided with the requisite material for making well-informed decisions.

For his support the CEO has appointed a Management Group. The Management Group regularly works with specific business transactions, follow-up on value creation plans, sustainability issues and the company's financial flexibility. Frequently risk assessment and company strategy are evaluated. When the Extended Management Group meets, organization and employee matters are also discussed. For members of the Extended Management Group, see page 48.

Control functions

The Risk Control function is responsible for coordinating the internal reporting of Invest Receive's significant risks at the aggregate level. The Risk Control function reports to the Audit and Risk Committee.

The Compliance function supports Invest Receive's compliance with laws and regulations, and maintains internal regulatory systems and education to this end. The Compliance function reports to the Audit and Risk Committee.

The review function, Internal Control, provides objective support to the Board on matters relating to the internal control structure, partly by investigating major areas of risk and partly by performing reviews and follow-ups in selected areas.

The Internal Control function regularly provides reports on its work to the Audit and Risk Committee during the year.

Remuneration

Remuneration to the Board

The total remuneration to the Board approved by the 2018 AGM was SEK 10,835 t. Since the 2008 AGM, it is possible for Board members to receive a portion of their remuneration in the form of synthetic shares. Information on specific remuneration is provided in the table on page 40 and in note 10, Employees and personnel costs.

At the statutory Board meeting in May 2018, the Board adopted, as in 2011-2017, a policy stating that Board members, who do not already have such holdings, are expected to, over a five-year period, acquire an ownership in Invest Receive shares (or a corresponding exposure to the Invest Receive share, e.g. in the form of synthetic shares) with a market value equivalent to at least one year's Board remuneration, before taxes, excluding remuneration for Committee work.

Remuneration to Management

The total remuneration for the CEO is determined by the Board. Remuneration issues concerning other members of the Extended Management Group are decided by the Remuneration Committee, after which the Board is informed.

Invest Receive's policy is for the Extended Management Group to own shares in Invest Receive corresponding to a market value of at least one year's gross salary for the CEO and at least half of one year's gross salary for the other members of the Extended Management Group.

See note 10, Employees and personnel costs, and on the website, for the most recently approved guidelines on remuneration and for a description on the long-term variable remuneration programs. See also the website for the information and

evaluation that have to be reported according to the Code.

The Board of Directors' proposal regarding guidelines for salary and other remuneration for the CEO and other members of the Extended Management Group to the 2019 AGM corresponds in substance with the guidelines for remuneration decided by the 2018 AGM.

The Board of Directors' proposal regarding long-term variable remuneration programs to the 2019 AGM are substantially the same as the programs decided by the 2018 AGM.

Deviation from the remuneration guidelines decided by the AGM

Viveka Hirdman-Ryrberg joined the Management Group in September 2018 with a contracted age of retirement of 62 years, which deviated from the guidelines decided by the AGM pursuant to which the retirement age shall be 60 years. The Board of Directors concluded that the employment of Viveka Hirdman-Ryrberg, who is born in 1963, should have a longer time perspective than had been the case with a retirement age of 60 years, and

therefore used the possibility to deviate, when special cause exists in an individual case, from the guidelines decided by the AGM.

Deviation from the Code

The long-term variable remuneration program for employees within Patricia Industries has the purpose that employees within Patricia Industries should have a long-term variable remuneration directly aligned with the value creation within the business area Patricia Industries. The program is based on the same structure as Invest Receive's program for long-term variable remuneration and contains corresponding performance criteria, but the outcome is depending on the development of the underlying assets of Patricia Industries. Since these assets are not listed, the total cost of the program, which is cash-settled, cannot in an efficient way be capped by hedging arrangements. In order for the program to correspond as closely as possible and create a corresponding incentive profile as the Invest Receive program, the total outcome for each individual participant in the program

is limited by a maximum number of instruments that can be allocated, but not by any other type of predetermined limit. To the extent the program is not compliant with Code rule 9.5, i.e. that variable remuneration paid in cash should be subject to a predetermined limit, this is consequently a deviation from the Code for the above stated reasons. Similarly, the Extended Management Group member Noah Walley's rights under the old variable remuneration programs for IGC are not subject to any predetermined limit. To the extent these programs are not compliant with the above-mentioned Code rule 9.5, this is also a deviation from the Code. The reason for such deviation is that the Board of Directors has considered that Noah Walley's already agreed rights should be honored and remain valid also after his appointment to the Extended Management Group rather than being re-negotiated.

BOARD COMPOSITION - BOARD OF DIRECTORS ELECTED AT THE AGM 2018, EXCLUDING EXECUTIVES (CEO)

Internal control over financial reporting

This description of the internal control over the financial reporting is based on the framework set by the Committee of Sponsoring Organizations of the Tread-way Commission (COSO).

Invest Receive's internal control over the financial reporting is focused primarily on ensuring efficient and reliable control of, and accounting for purchases, sales and valuation of securities as well as correct consolidation of the operating Subsidiaries The Board and Management of each operating subsidiary is responsible for

ensuring the efficiency of the subsidiary's internal control structures, risk management and financial reporting. Patricia Industries' Board representative provides this information to Patricia s' Board, where analysis and follow-up take place. Patricia Industries' Board ensures that Invest Receive's Board and Management receive information on any issues that could affect Invest Receive's business or financial reporting

Control environment

The control environment is built around an organization with clear decision-making channels, powers and responsibilities and a corporate culture based on shared values. It also requires each individual's awareness of his/her role in maintaining effective internal control.

All of Invest Receive's business areas have policies, instructions and detailed process descriptions. These documents establish responsibilities for specific tasks, man-dates and powers and how validation is to be carried out. Accounting and report-ing rules and routines are documented in Invest Receive's Financial Handbook. All govern-ing documents are presented on the intranet for all employees. The documents are updated yearly or when needed. Dur-ing 2018 Invest Receive and the subsidiaries have worked with issuing steering docu-ments and implementing procedures to manage personal data in accordance with the new EU General Data Protection Reg-Control functions have followed-up on the control environment in the financial reporting processes at the subsidiaries.

Risk assessment

Risk assessment is conducted continuously in the day to day business at Invest Receive. Annually the Finance department assesses risk for major errors in the finan-cial reporting and sets action plans to reduce identified risks. Focus is placed on significant Income Statement and Balance Sheet items, which have a higher risk because of the complexity, or where there is a risk that the effects of a potential error may become significant because of the high transaction values involved. Con-clusions drawn from the risk assessments on risks for errors in the financial report-ing are reported to and discussed with the Audit and Risk Committee.

Using the risk assessment as a starting point to ensure the reliability of the financial reporting, the Audit and Risk Committee determines which of the identified risks should be prioritized by the Internal Control function. Suggestions for improvements are identified and implemented on an ongoing basis. Assessment of cyber risks has been a focus during the year. The new subsidiaries have implemented risk management processes for assessment and management of risks for errors in the financial reporting.

For a more detailed description of risks and other risk assessments, see note 3, Risks and Risk management.

Control activities

To ensure that the financial reporting gives a true and fair picture on each reporting date, every process incorporates a number of control activities. These involve all levels of the organization, from the Board and Management to other employees.

Financial controls in the company include approval of business transactions, reconciliation with external counterparties, daily monitoring of risk exposure, daily account reconciliation, monthly custody reconciliation, performance monitoring and analytical monitoring of decisions. Invest Receive's financial reports are analyzed and validated by the company's

THE CONTINUOUS RISK ASSESSMENT

control function within Finance. Frequent analysis of the operating subsidiaries' financial reports are also performed. Documentation of key controls in the financial reporting process has, also this year, been a focus area in the reviews Internal Control has performed.

Information and communication
For the purpose of ensuring that the external information is correct, complete and timely, Invest Receive's Board has adopted a Communication Policy. Within the company, there are also instructions regarding information security and how to communicate financial information between the Board, Management and other employees as well as from Patricia Industries to Invest Receive has an established external process for whistleblowing, accessible for all employees on the intranet and for external stakeholders on Invest Receive's web-site. It can be used anonymously.

During 2018 routines regarding the financial information and communication with the new subsidiaries, Piab and Sarnova, have been established.

Monitoring

Both the Board and the Management Group regularly follow up on the effectiveness of the company's internal controls to ensure the quality of processes for the financial reporting. Invest Receive's financial situation and strategy regarding the company's financial position are discussed at every Board meeting and the Board is provided with detailed reports on the development of the business to this end. The Board reviews all interim reports before public release.

The Audit and Risk Committee plays an important role in ensuring and monitoring that control activities are in place for important areas of risk inherent in the processes for financial reporting and regularly reports the results from the committee work to the Board. The Audit and Risk Committee, Management Group and Internal Control function regularly follow up reported deviations.

All of Invest Receive's business areas have policies, instructions and detailed process descriptions. These documents establish responsibilities for specific tasks, mandates and powers and how validation is to be carried out.

INTERNAL CONTROL OVER FINANCIAL REPORTING

The diagram provides an overview of how legislation, regulations, guidelines and controls together assure accurate and comprehensive financial reporting.

Auditor's Report

To the annual general meeting of the shareholders of Invest Receive CORP. ID 556013-8298

REPORT ON THE ANNUAL ACCOUNTS AND CONSOLIDATED ACCOUNTS

Opinions

We have audited the annual accounts and consolidated accounts of Invest Receive AB (publ) for the financial year January 1, 2018 – December 31, 2018 except for the corporate governance statement on pages 38-49 and the statutory sustainability report on pages 4-7, 10-13, 22-30, 36-37, 62 and 114-115. The annual accounts and consolidated accounts of the company are included on pages 4-13, 36-109 and 114-115 in this document.

In our opinion, the annual accounts have been prepared in accordance with the Annual Accounts Act and present fairly, in all material respects, the financial position of the parent company as of 31 December 2018 and its financial performance and cash flow for the year then ended in accordance with the Annual Accounts Act. The consolidated accounts have been prepared in accordance with the Annual Accounts Act and present fairly, in all material respects, the financial position of the group as of 31 December 2018 and their financial performance and cash flow for the year then ended in accordance with International Financial Reporting Standards (IFRS), as adopted by the EU, and the Annual Accounts Act. Our opinions do not cover the corporate governance statement on pages 38-49 and the statutory sustainability report on pages 4-7, 10-13, 22-30, 36-37, 62 and 114-115. The statutory administration report is consistent with the other parts of the annual accounts and consolidated accounts.

We therefore recommend that the general meeting of shareholders adopts the income statement and balance sheet for the parent company and the group.

Our opinions in this report on the annual accounts and consolidated accounts are consistent with the content of the additional report that has been submitted to the parent company's audit committee in accordance with the Audit Regulation (537/2014) Article 11.

Basis for Opinions

We conducted our audit in accordance with International Standards on Auditing (ISA) and generally accepted auditing standards in Sweden. Our responsibilities under those standards are further described in the Auditor's Responsibilities section. We are independent of the parent company and the group in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements. This includes that, based on the best of our knowledge and belief, no prohibited services referred to in the Audit Regulation (537/2014) Article 5.1 have been provided to the audited company or, where applicable, its parent company or its controlled companies within the EU.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Key Audit Matters

Key audit matters of the audit are those matters that, in our professional judgment, were of most significance in our audit of the annual accounts and consolidated accounts of the current period. These matters were addressed in the context of our audit of, and in forming our opinion thereon, the annual accounts and consolidated accounts as a whole, but we do not provide a separate opinion on these matters.

Governance over financial reporting

The companies within Patricia Industries are independent with separate internal control systems in place for their operating activities as well as processes for financial reporting.

Our audit focused on the governance over financial reporting for several reasons. Firstly, it is important to ensure that the information reported by each entity is prepared in accordance with IFRS. Secondly, it is important to have well established procedures to ensure timely and correct financial reporting. Thirdly, monitoring controls are important to ensure high quality reporting.

Invest Receive's information regarding the principles applied for its consolidated financial statements are included in Note 1 Significant accounting policies and Note 18 Shares and participation in associates on page 82, providing further explanation on the method for accounting for associates.

Our audit procedures included, but were not limited to:

- We obtained an understanding of Invest Receive's processes relating to internal controls over financial reporting and tested key controls.
- We evaluated internal controls in relation to critical IT-systems used for financial reporting.
- We assessed the company's procedures relating to controls over financial information reported from consolidated subsidiaries and associates reported under the equity method.
- We assessed the application of new accounting rules and regulations and their compliance with IFRS.

Valuation of unlisted investments

The valuation process for unlisted investments requires estimates by management and is therefore more complex compared to the valuation of listed investments. The total carrying value of unlisted investments recognized at fair value amounted to SEK 25,936 million as of December 31, 2018.

Invest Receive's valuation policy is based on IFRS 13 and the International Private Equity and Venture Capital Valuation Guidelines. Inappropriate judgements made in the assessment of fair value could have a significant impact on the value of the unlisted investment.

We focused on the unlisted investments since the carrying value is material, the investment portfolio comprises a large number of unlisted securities and since the assessments made to arrive at the fair value is sensitive to judgements and estimates made.

Invest Receive's principles for accounting for unlisted investments are described in note 30 on page 90 and detailed disclosures regarding these investments are included in Note 30 Financial instruments on page 90-94, see detailed description in section Measurement of financial instruments in level 3.

Our audit procedures included, but were not limited to:

- We obtained an understanding of the valuation process and key controls in this process and tested key controls.
- We agreed correct ownership percentages in Patricia Industries and EQT funds and proper accounting for changes in such ownership.
- We confirmed the reported valuations as of December 31, 2018 to audited financial statements of the funds of EQT.
- We tested that the methodology and consistency applied in the valuation of the portfolio companies is in accordance with IFRS 13 and the International Private Equity and Venture Capital Valuation Guidelines.
- We recomputed the calculation of the enterprise value for a selection of portfolio companies in Patricia Industries including agreeing currency rates to external independent sources.

- We assessed the relevance of multiples used in Patricia Industries' port-folio companies' enterprise value calculations against market multiples from relevant transactions or market data.

Valuation of listed investments

There is a lower degree of judgment involved in the valuation process for listed investments compared to unlisted investments. However, a substantial portion of Invest Receive's total assets is embedded in the holdings in listed investments. The total carrying value of listed investments amounted to SEK 272,998 million as of December 31, 2018.

We focused on the listed investments since the carrying value is significant, there is a risk that changes in ownership might not be properly recognized, and effects of dividend received might not properly be reflected in the fair value.

Invest Receive's principles for accounting for listed investments are described in note 30 on page 90 and detailed disclosures regarding listed investments are included in Note 30 Financial instruments on page 90-94, see detailed description in section Measurement of financial instruments in level 1.

Our audit procedures included, but were not limited to:

- We obtained an understanding of the valuation process and tested key controls.
- We validated the holdings towards external statements.
- We tested the fair value calculation arithmetically and compared values to official share prices.
- We reviewed disclosures relating to valuation of listed investments to ensure compliance with IFRS.

Intangible assets

Invest Receive's acquisitions of Mölnlycke, Aleris, Permobil, BraunAbility, Laborie, Sarnova and Piab have led to a portion of the purchase price being allocated to intangible assets including goodwill. Changes in economic conditions or lower than expected development of performance may be indicators of potential impairment of the recoverable amount of these assets and hence the consolidated net asset value of Invest Receive. The total carrying amount of goodwill relating to these holdings amounted to SEK 43,196 million as of December 31, 2018.

We focused on the assessments of the carrying value for the holdings above since the carrying value of intangible assets are material and as the assessment of the recoverable amount may be sensitive to changes in assumptions.

Invest Receive's disclosures regarding intangible assets are included in Note 15 Intangible assets on page 78-80, which specifically explains key assumptions used in the assessment of the recoverable amounts.

Our audit procedures included, but were not limited to:

- We obtained an understanding of management's annual impairment testing process and controls for assessing impairment triggers and tested key controls.
- We reviewed the valuation and financial development of each entity and discussed historical performance with management.
- We analyzed the assumptions made in the impairment tests for each entity and compared to historical performance, external and other benchmark data.
- We evaluated the sensitivity of key assumptions.
- We reviewed the disclosures related to valuation of intangible assets and assessed whether the disclosures are in line with IFRS.

Acquisitions and divestments

During 2018 Patricia Industries completed two major acquisitions. In April 2018, 86 percent of Sarnova Holdings, Inc. was acquired for SEK 4,297 million resulting in goodwill of SEK 4,117 million. In June 2018, 89 percent of Piab Group AB was acquired for SEK 4,713 million resulting in goodwill of SEK 3,640 million.

We focused on these acquisitions since they are significant transactions and since preparing purchase price allocations ("PPA"), including the identification and valuation of the acquired assets and liabilities, require the use of significant management judgements and estimates.

Invest Receive's disclosures regarding acquisitions are included in Note 4 Business Combinations on page 62-63, which also explains key assumptions used in preparing the PPA.

Our audit procedures included, but were not limited to:

- We obtained an understanding of the process in preparing the PPA, which includes an assessment of the valuation competence utilized in preparing the PPA.
- We have read and assessed the key terms in the purchase agreement.
- We have reviewed the PPAs, which includes an assessment of the identification of intangible assets based on understanding of the business of the acquired companies as well as discussion with management.
- We have involved our internal valuation specialists in assessing the valuation methodologies and key assumptions in the fair valuation of the acquired assets and liabilities
- We reviewed the disclosures related to the acquisitions and assessed whether the disclosures are in line with IFRS.

Other information than the annual accounts and consolidated accounts

This document also contains other information than the annual accounts and consolidated accounts and is found on pages 1-3, 14-35 and 116-117. The Board of Directors and the Managing Director are responsible for this other information.

Our opinion on the annual accounts and consolidated accounts does not cover this other information and we do not express any form of assurance conclusion regarding this other information.

In connection with our audit of the annual accounts and consolidated accounts, our responsibility is to read the information identified above and consider whether the information is materially inconsistent with the annual accounts and consolidated accounts. In this procedure we also take into account our knowledge otherwise obtained in the audit and assess whether the information otherwise appears to be materially mis-stated.

If we, based on the work performed concerning this information, conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors and the Managing Director

The Board of Directors and the Managing Director are responsible for the preparation of the annual accounts and consolidated accounts and that they give a fair presentation in accordance with the Annual Accounts Act and, concerning the consolidated accounts, in accordance with IFRS as adopted by the EU. The Board of Directors and the Managing Director are also responsible for such internal control as they determine is necessary to enable the preparation of annual accounts and consolidated accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts and consolidated accounts, The Board of Directors and the Managing Director are responsible for the assessment of the company's and the group's ability to continue as a going concern. They disclose, as applicable, matters related to going concern and using the going concern basis of accounting. The going concern basis of accounting is however not applied if the Board of Directors and the Managing Director intends to liquidate the company, to cease operations, or has no realistic alternative but to do so.

The Audit Committee shall, without prejudice to the Board of Director's responsibilities and tasks in general, among other things oversee the company's financial reporting process.

Auditor's responsibility

Our objectives are to obtain reasonable assurance about whether the annual accounts and consolidated accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and generally accepted auditing standards in Sweden will always detect a material misstatement when it exists. Mis-statements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts and consolidated accounts.

A further description of our responsibilities for the audit of the annual accounts and consolidated accounts is located at the Swedish Inspectorate of Auditors website: www.revisorsinspektionen.se/revisornsansvar. This description forms part of the auditor's report.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS Opinions

In addition to our audit of the annual accounts and consolidated accounts, we have also audited the administration of the Board of Directors and the Managing Director of Invest Receive AB (publ) for the financial year January 1, 2018 – December 31, 2018 and the proposed appropriations of the company's profit or loss.

We recommend to the general meeting of shareholders that the profit to be appropriated in accordance with the proposal in the statutory administration report and that the members of the Board of Directors and the Managing Director be discharged from liability for the financial year.

Basis for Opinions

We conducted the audit in accordance with generally accepted auditing standards in Sweden. Our responsibilities under those standards are further described in the Auditor's Responsibilities section. We are independent of the parent company and the group in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Responsibilities of the Board of Directors and the Managing Director
The Board of Directors is responsible for the proposal for appropriations of the company's profit or loss. At the proposal of a dividend, this includes an assessment of whether the dividend is justifiable considering the requirements which the company's and the group's type of operations, size and risks place on the size of the parent company's and the group's equity, consolidation requirements, liquidity and position in general.

The Board of Directors is responsible for the company's organization and the administration of the company's affairs. This includes among other things continuous assessment of the company's and the group's financial situation and ensuring that the company's organization is designed so that the accounting, management of assets and the company's financial affairs otherwise are controlled in a reassuring manner. The Managing Director shall manage the ongoing administration according to the Board of Directors' guidelines and instructions and among other matters take measures that are necessary to fulfill the company's accounting in accordance with law and handle the management of assets in a reassuring manner.

Auditor's responsibility

Our objective concerning the audit of the administration, and thereby our opinion about discharge from liability, is to obtain audit evidence to

assess with a reasonable degree of assurance whether any member of the Board of Directors or the Managing Director in any material respect:

- has undertaken any action or been guilty of any omission which can give rise to liability to the company, or
- in any other way has acted in contravention of the Companies Act, the Annual Accounts Act or the Articles of Association.

Our objective concerning the audit of the proposed appropriations of the company's profit or loss, and thereby our opinion about this, is to assess with reasonable degree of assurance whether the proposal is in accordance with the Companies Act.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with generally accepted auditing standards in Sweden will always detect actions or omissions that can give rise to liability to the company, or that the proposed appropriations of the company's profit or loss are not in accordance with the Companies Act.

A further description of our responsibilities for the audit of the management's administration is located at the Swedish Inspectorate of Auditors website: www.revisorsinspektionen.se/revisornsansvar. This description forms part of the auditor's report.

The auditor's examination of the corporate governance statement

The Board of Directors is responsible for the corporate governance statement on pages 38-49 and that it has been prepared in accordance with the Annual Accounts Act.

Our examination of the corporate governance statement is conducted in accordance with FAR's auditing standard RevU 16 The auditor's examination of the corporate governance statement. This means that our examination of the corporate governance statement is different and substantially less in scope than an audit conducted in accordance with International Standards on Auditing and generally accepted auditing standards in Sweden. We believe that the examination has provided us with sufficient basis for our opinions.

A corporate governance statement has been prepared. Disclosures in accordance with chapter 6 section 6 the second paragraph points 2-6 of the Annual Accounts Act and chapter 7 section 31 the second paragraph the same law are consistent with the other parts of the annual accounts and consolidated accounts and are in accordance with the Annual Accounts Act.

The auditor's opinion regarding the statutory sustainability report
The Board of Directors is responsible for the statutory sustainability report on pages 4-7, 10-13, 22-30, 36-37, 62 and 114-115, and that it is prepared in accordance with the Annual Accounts Act.

Our examination has been conducted in accordance with FAR's auditing standard RevR 12 The auditor's opinion regarding the statutory sustainability report. This means that our examination of the statutory sustainability report is different and substantially less in scope than an audit conducted in accordance with International Standards on Auditing and generally accepted auditing standards in Sweden. We believe that the examination has provided us with sufficient basis for our opinion.

A statutory sustainability report has been prepared. Deloitte AB, was appointed auditor of Invest Receive AB (publ) by the general meeting of the shareholders on the 2018-05-08 and has been the company's auditor since 2013-04-15.
